

To whom it may concern,

I am writing as the President of the Bridlewood neighborhood Homeowners Association. Recently we became aware that Bridlewood is zoned as SB-PD (Special Business – Planned Development). It is our understanding that it is typically the housing developer's responsibility to rezone our neighborhood upon completion of construction. Since completion occurred in 1992, we have been left in this zone that is no longer used.

The Board of Directors has tasked me with petitioning the city on Bridlewood's behalf. We kindly request that the City Council step in and assist with having Bridlewood rezoned to a single family classification. We understand that there are many options for this and believe the best course of action is for the city planners and council to select an appropriate residential district.

Thank you for any and all consideration.

Sincerely,
Jon Dosmann
Bridlewood Board of Directors President
